PROFILE

As a detail-oriented front-end developer, I specialize in creating responsive, user-friendly web applications. My expertise includes frameworks like Next.js, API integration, and optimizing performance for mobile and desktop platforms.

With a strong grasp of modern design principles and development tools, I deliver intuitive and visually appealing user experiences. Skilled in debugging, problem-solving, and collaboration, I prioritize writing clean, maintainable code while staying current with industry trends.

WORK EXPERIENCE

Feature/Mind
